"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Dr. J. W. Wood & Son, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show-case, said to me: 'I really believe that medicine saved my life the past summer while on the coast,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store on a severe case of colic, and he took at once to the remedy. I gave him a dose of this remedy, which helped him. I repeated the dose and in fifteen minutes he felt his stomach finally informing me that he felt as well as ever." said by J. W. Wood & Son, Druggists.

President Harrison Says American Capitalists Will Build Road.

A dispatch from Knoxville says that in an interview President J. B. Harris of the Booneville and Knoxville Railroad Company stated that if the financing plan of Colonel T. C. Dickinson to interest English capitalists in the road fails, American capitalists are ready to take the building of the road.

Colonel Dickinson's option on the rights of way expires September 20th, and if the English capital is not ready then the options may be transferred to a large American syndicate, whose agent has been in Knoxville securing information as to the road.

This is Colonel Albert E. Boone's proposed road from the Ohio river to Port Royal, S. C.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your physicians and druggists have never thought of using anything else for Indigestion or Biliousness. Doctors were aware, and they seldom heard of Augustine's Service, Protection or Heart Failure, etc. They used August Flower to cleanse the system and to regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they saw when feeling dull and bad with headaches and other aches. You only need a few drops of August Flower in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by J. C. Trever.

The Gobel Law is the most fitting monument that Gobel could have.

WHETHER it is better to keep on paying \$200,000,000 a year to foreign shipowners, or legislate so that American ships may earn that money and keep it at home, is one of the things Congress will decide before adjournment.

It is said it has been given out in certain quarters, it is said, that a certain Mayville man, it is said, will draw an indictment, it is said, that that Grand Jury sitting at Frankfort, it is said, it may be said that this is about as definite as the says that have been said connecting Governor TAYLOR with the shooting of Gobel.

The Courier-Journal has certainly sunk to a low plane since it espoused the cause of Gobelism. No insinuation is too mean or dirty or contemptible to find a place in its columns. Yesterday its Washington correspondent, speaking of the arrival there of Governor TAYLOR, was pleased to say, "W. S. TAYLOR, formerly of Kentucky, is reported in the city."

ANYTHING that is unfair is not right; an election law that gives one party the slightest advantage over the other party is unfair; the basic principle of all law is equal and exact justice to all men; this is the constitutional right of every citizen of the United States; therefore an election law which deprives one party of equal rights with the other party is unconstitutional. That's the Gobel Law.

CAN anybody tell what has become of the DR. ARMSTRONG? Months ago he declared positively and emphatically that the man who shot Gobel was known, and that "he was a white man and a Republican." In the absence of this man's arrest, and for the reason that ARMSTRONG is no longer heard of in his proper person, it is not too much to presume that he is now editing The Courier-Journal.

The change in public sentiment regarding the Porto Rican act, now that its principles and underlying motives are understood, has been remarkable. People who a month ago were clamoring for immediate Free-trade with Porto Rico say frankly now that the act as passed is vastly better and for very important reasons. To have established immediate Free-trade with Porto Rico would have taken away the easiest method of raising revenue which that island must have, and which it could otherwise only have had by an internal revenue act—a tax which would have been extremely burdensome—or by direct contribution from the Treasury of the United States. This absolutely necessary revenue will now be supplied from the collections under the Porto Rican Act on all dutiable goods imported into the United States from Porto Rico or into Porto Rico from the United States. If this system of raising money is unsatisfactory to Porto Ricans they can put an end to it within a few months if they desire, since the act authorizes them to elect a Legislature and specifically provides that all Tariff between the United States and Porto Rico shall cease when that Legislature shall provide the necessary funds for sustaining the Government of Porto Rico. An equally important result, however, of the enactment of this law, which retains a mere shadow of Tariff duties between Porto Rico and the United States, lies in the fact that the right to determine matters of this character as they are reached is retained by Congress, and thus no precedent is established by which anybody could claim, or the Democratic party can successfully assert, that Free-trade with the Philippines or other possessions of that character must or would logically follow. It is only justice to the workmen of the United States, whether on the farm, in the factory, the mines or elsewhere, that Congress should retain in its hand the absolute power to determine these matters one by one, as they may offer themselves for determination.

Since 1897 there has been a general upward movement in the prices of commodities in the United States. This was the cry of the Democratic party in 1896: "Give us free silver and prices will advance all along the line." But the Republicans killed free silver and prices went up all the same.

PLENTY OF IT.

More Proof Like This, and It Is All From Mayville People.

"The proof of the pudding is in the eating of it." If any city or town in the Union has sufficient proof on the following subject it is Mayville, the genuine merit is finding its reward in the hearty admiration of local citizens. When people right here at home, friends and neighbors of our readers, give a statement like the following for publication its proof convincing for the most skeptical.

Read this testimony:

JIM HOWARD IN JAIL.

He says He Can Prove That He Had No Connection With the Assassination.

Frankfort, Ky., May 10.—Jim Howard, the feudist, who was named by Fulton and other witnesses as the man who probably fired the shot which killed Governor Taylor, was lodged at the jail here Wednesday night. He arrived here at 6:30 in custody of Sheriff Lee White, of Clay county, and John G. White, of Winchester.
Sheriff White says that Howard told him when his name was first mentioned in connection with the assassination that he was innocent and would surrender whenever he was wanted. Mr. White said: "I received the warrant for Howard's arrest several days ago, but at the time I was busy. I knew Jim would not run off. As soon as I got time I served the warrant of arrest on him. This was on the 7th inst. He came without a word." Howard said: "I never was inside the state house square in my life until the afternoon following the assassination of Gobel.
